REMARKS

Applicant thanks the Examiner for the remarks and analysis contained in the most recent Office Action. Claims 1 and 13 are amended. Claim 19 is added. Applicant respectfully requests reconsideration of this application where claims 1-4, 7-9, 11-13 and 16-19 are pending.

A clerical correction has been made to paragraph 7 of the specification. No new matter is introduced.

Applicant respectfully submits that the *Wakelam* reference does not render any of the pending claims obvious. Nothing in the *Wakelam* reference discloses or suggests an arrangement operated by an elevator company to provide information to individuals outside of the elevator company.

New claim 19 includes providing a list of possible elevator system components to a user and allowing them to choose from among those components. The *Wakelam* reference does not suggest such an arrangement. Instead, that system only fits in an elevator system into a building and does not address any capability for an individual to select from among elevator system components as provided by the arrangement in claim 19. Claim 19 is supported by at least paragraph 30 of the specification beginning on page 6.

Applicant respectfully submits that this case is in condition for allowance.

Respectfully submitted,
